Maksym Bieńkowski

+48 667 354 338 bienkowski.maksym@gmail.com mbienkowsk

Education

Feb 2026 - Jun 2027 **Warsaw University of Technology** - *MSc Computer Science*

- Member of the *Studia ID* individual study programme for exceptional students
- Conducting research in the field of metaheuristic optimization algorithms

Oct 2022 - Feb 2026 **Warsaw University of Technology** - *BSc Computer Science*

- Grade: **Excellent (highest distinction)**
- Graduated top of class, 4.91/5 cumulative GPA
- Specialty in Artificial Intelligence
- **Thesis:** *Improving the efficiency of CMA-ES as a global optimization algorithm*

Experience

Jan 2025 - Feb 2026 **Hermes - *Lead Backend Engineer***

- Led a team of 4 people in backend development of a CRM platform in a startup setting
- Designed REST APIs and database schemas supporting operational workflows
- Delivered a production system deployed in one of the largest office building complexes in Poland
- Stack: Python (Django), PostgreSQL

Jul - Sep 2025 **Goldman Sachs - *Software Engineering Intern***

- Developed a full-stack RAG system to automate incident resolution and customer support
- Implemented a tool for semantic search of support tickets, improving developer productivity
- Engineered a custom document ingestion and retrieval pipeline
- Stack: Python, Java (Spring Boot), React, Elasticsearch, MongoDB

Relevant Projects

2025 **Optical network optimizer** *Python, React*

- Designed and implemented a web application enabling network analysts to optimize optical network performance
- Integrated integer programming and graph-based shortest path algorithms for optimization, with interactive visualization and comprehensive reporting

2025 **Clanker - Coding agent** *Rust*

- Lightweight (~500 LOC) LLM coding agent capable of iteratively generating and modifying code
- Implemented an agent loop with tool execution enabling the model to inspect repository structure, read and edit files

Honors and awards

2023-2026 **5x laureate** of the Warsaw University of Technology Rector's scholarship for outstanding academic achievements

2022 **Matura na 100% scholarship** awarded for top students nationwide for perfect University Entrance Exam results

Skills

Programming languages: Python, Go, Rust, C++, TypeScript, Java

Tools: Unix shell, Git, Docker, Ansible, Terraform, Github Actions

Libraries: Numpy, Pandas, Pytorch, Sklearn

Languages: Polish - native, English - C2 (IELTS band 8.5), German - B2
